

# DYNA-BRUTE FB PARTS WASHERS

#964101

## FEATURES

- All-steel construction
- Baked-on enamel paint finish
- Shelf removes for access to soaking area
- Spring-loaded lid for easy opening and closing
- 168 gph UL/CSA approved submersible electric pump which operates on 115 volt, 1 amp
- Model 5100 filtration system with 50-micron polypropylene particulate filter with visible filter bowl
- Filter change indicator signals when the 5100 filter needs to be changed
- 165°F UL approved fire link. In the unlikely event of a fire, the link separates, permitting the lid to close – containing the fire
- Directional spout with on/off control

- 903402** Dyna-Trap filter bag (box of two)
- 907401** Dyna-Brute hogs hair filter pad

## PRODUCTS TO USE

- 903501** Oriflo "Flow-Thru" Cleaning Brush
- 903701** Foot pedal switch
- 903901** Parts Basket- 21.5" x 10.5" x 7.75"
- 906301** Work Light

**The Zep Dyna-Brute FB meets or exceeds the OTC Freeboard Specifications.**

*The New Zep Dyna-Brute is a tough, stable, parts washer for cleaning or soaking with solvent-based cleaners. An ideal choice for fast, efficient and economical cleaning of dirty or greasy parts. The Zep Dyna-Brute FB meets or exceeds the OTC Freeboard Specifications.*

*Zep's exclusive filtration system extends solvent life and helps protect the environment. Instead of having large volumes of potentially-hazardous fluid hauled off from the work-site, only the filter elements are disposed of. The Zep Model 5100 filter can remove particles down to 10 microns (with optional element). The Dyna-Trap filter bag removes oils and greases – extending solvent life. Convenient Filter Change Indicator lets you know when it's time for a new filter.*
